Thanks to everyone for a great first virtual con, COS VCON! It's definitely a first attempt so also thank you for bearing with us!

We at COS wanted to say a hearty "Thank you!" to everyone that had stepped up to run and/or coordinate events all weekend! I think the feedback was been pretty positive overall, which mostly means you all have provided a really great experience for the players, so seriously thank you everyone, great work!

Also thanks to all the players that came from far and wide! We hope you had a great time!
